# CEO STATEMENT

**Mr. Budi Pranoto**  
**CEO PT. Bismacindo Perkasa**

I am Budi Pranoto I am the CEO of PT Bisma Sindo Perkasa established September 23, 2000. September 2000 where bismacindo actually stands for Indonesian powerful machine business so our business runs out of high quality modern automatic machine machines but at a reasonable price the product package that we sell we focus on Modern Office automation products which can help humans get their work done well.

One of our achievements is being the Best Reseller of Southeast Asia & Korean Private Systems we achieved in 2017 and 2018, also in 2019 Jakarta & Bali Best REL Growth Partner of the Year FY1920 & Excellent Growth Corporate Reseller, and our superior product are in integrated systems such as computers, Fancy shapes, guaranteed, military tests from principle then also have more durable reliability, our other products such as thermal scanners division is also usually used in corporate hippmal in banks in the Corona pandemic situation.

in this Corona pandemic situation, many of Peni's communicants bought it when we entered the mall if we used thermoguard it felt impolite, yes we had our heads pointed like a gun, now with this it is more polite faster, for safes we have Chubb safes brand safes that are number one in the world and the truth is that Bismacindo is lucky how Bismacindo has the most expensive safe in the world that is in Bismacindo can be seen in our showroom how Chubb safes safes are also used in our company why if this brand until it is used in banks and does not use other brands because Chubb safes is a quality guarantee so some insurance even if it is not the bag will be paid for insurance.

In addition, we also have the latest product, Smart, called the Smart Vehicle Detection System machine, the application can be used for gas station entrepreneurs where when the operator fills the gas station, the machine can read the vehicle number and can control the nominal filling per day is also directly inputted into the filling receipt, this machine will also replace the function at the cashier where the cashier can no longer have a counter error to get counterfeit money.
